We Never Shut Down

Live stock keeps coming to market and we have to keep buying it and putting it through our plants whether conditions are good or poor.

Swift & Company has no control over the quantity of live stock shipped to market. Live-stock producers ship their animals to the big stock-yards markets, wherethey are sold through commission men who represent the shippers.

The result is that the live-stock supply fluctuates from week to week. We have to buy the animals, however many or few there are; and they have to be handled without delay.

We cannot hold dressed beef, lamb, mutton, veal, fresh pork, or any other fresh perishable meats, but have to sell them at the prevailing market prices within a few days. If we try to sell at half a cent under the prevailing prices, retailers would naturally buy from us as long as our supply lasted, and that supply would be used up very quickly. On the other hand, if we try to sell for half a cent higher than the market prices, the retailers, who shop around, would buy from our competitors and we would have our fresh meat left on our hands. We have to sell our products every day at prevailing market prices whatever those prices may be.

Half a cent up or down in the wholesale price means the difference between profit and loss to us.

Swift & Company, U. S. A.

I direct that this notice be published in the Standard Examiner, published at

"A trifle perky these mornings and evenings, eh? Well, that just means that my mates, Bill Blizzard and Sam Snowstorm, are in the offing. I'm lookin' for 'em any day now, and my tip to you is to be lookin' into your coal bin. An' better see that you've got a good supply of Castle Gate or Clear Creek coals before they 'blow' in."

BUY COAL NOW--

is NOT an idle advertising phrase. It has more than ordinary significance when it is considered that just at this time there is plenty of coal to be had from your dealer and that hauling is easy with good roads. Later you may have difficulty getting coal at all. . Specify one of the two best,

> CASTLE GATE or CLEAR CREEK.
